MOSTAFA HEGAZY

Product Manager | 0-to-1 Builder | Agile Leader | Data-Driven
Montreal, QC · (514) 605-5809 · mostafahegazy.personal@gmail.com

SUMMARY

Product Manager with 7+ years building and shipping products across e-commerce, logistics, and enterprise SaaS. Track record of owning full product cycles from discovery to launch with measurable outcomes. Skilled in roadmapping, agile delivery, stakeholder alignment, user research, and A/B testing. My entire professional career is building startups, hence I thrive in ambiguous, fast-moving environments.

EXPERIENCE

Product Owner / Scrum Master · Groupe Dynamite — Jul 2025 – Present

- Drove a $300K/yr cost-saving initiative by owning the delivery of a data infrastructure optimization.
- Owned the enterprise migration (Power BI → Sigma, SQL Server → Snowflake), aligning engineering, data, and business stakeholders on priorities and timelines.
- Translated business objectives into actionable sprint-level requirements
- Ensured regulatory compliance (Law 25) across all data reporting platforms, coordinating cross-functional acceptance criteria with legal and engineering.
- Restructured planning across 3 pods which increased velocity by 17% and reduced over-committed sprints by 61%.

Senior Product Manager · Rabbit Mart — Jan 2024 – Jun 2025

- Set product strategy and owned 2 end-to-end roadmaps, continuously prioritizing features against OKRs through stakeholder feedback loops and market analysis.
- Championed customer needs by leading discovery sessions that shaped the automated dispatching system, boosting logistics efficiency by 18% and fulfillment by 2%.
- Ran A/B experiments on order grouping logic, reducing logistical cost by 11%.
- led international product expansion into a new market successfully within 3 months.
- Drove cross-functional alignment across ops, engineering, and commercial teams to define and ship roadmap features on time and within scope.

Product Manager · Rabbit Mart — Jul 2022 – Jan 2024

- Launched an in-house courier app from scratch, replacing 2 third-party tools and saving $58K/yr.
- Conducted on-site user research with pickers and riders to uncover root causes of order errors; validated solutions via rapid Figma A/B prototypes before development.
- Launched Rabbit AI, one of MENA's first AI shopping assistants, in 30 days by scoping an MVP, aligning leadership, and coordinating engineering and marketing ultimately generating $2K+ MRR.
- Instrumented product funnels and user events in Mixpanel to drive data-informed backlog prioritization and measure KPI impact post-launch.

Lead Scrum Master · Rabbit Mart — Aug 2021 – Jul 2022

- Formed and facilitated 3 cross-functional squads from scratch; defined agile rituals, team norms, and dependency management frameworks across tech, ops, and commercial.
- Reduced delivery blockers by 40%; improved team efficiency by 10% and delivery time by 20% through a tailored Scrum-Kanban hybrid methodology.

Project Manager / Business Analyst · GammaTechSolutions — Jul 2018 – Aug 2021

- Delivered 2 SaaS products simultaneously in 13 months across EdTech, fashion, and healthcare verticals.
- Reduced requirement ambiguity by 25% through user journey mapping, process models, and structured stakeholder communication.

PERSONAL PROJECTS

Quebec Tax Filing Guide App · *Claude Code* — 2025 – Present

- Built a web app guiding Montreal employees through dual federal and provincial tax returns with transparent, editable calculations.
- Designed document upload with auto-classification, credit discovery checklist, and side-by-side calculation UI with tooltips.
- Demonstrates AI-assisted full-stack product thinking, from idea to MVP.
